PhD

Hong Liu

Professor at Embry-Riddle Aeronautical University
Daytona Beach, Florida, United States

Summary

- Professor in Mathematics and Data Science: Taught various mathematics, statistics, and computer science, and data science courses to undergraduate & graduate students.
- Interdisciplinary Researcher: mathematics, computational science education, software engineering fields,, autonomous underwater vehicles, and Data Mining.
- Application Software Developer: Commanded many programming languages (C/C++, Java, Objective C, JNI, etc.) and developed several software packages, including real-time embedded systems to support scientific computation.

Specialties: Mastered many tools (MATLAB, OSATE, Statemates, NuSMV, UPPAAL, Stella, ANNIE, R, Python etc.) and skills for math modeling, model-checking, and visualization, Machine Learning, and Data Mining.

Experience

Embry-Riddle Aeronautical University

19 years 11 months

Professor

2015 - Present (11 years)

Teach and research

Adviser of SIAM Student Chapter at ERAU

Mentor Eco-Dolphin AUV Project

Associate Professor

August 2006 - Present (19 years 11 months)

Teach Mathematics Courses and Computational Sciences Courses

Mentoring Robotics Project Eco-Dolphin

Embry-Riddle Aeronautical University

Assistant Professor

August 2000 - May 2006 (5 years 10 months)

Primary role is to teach Mathematics and Computer Sciences Course
Part time role, Developing embedded software in LAIR (Lab of Advanced
Instrumentation Research) Lab,

Education

Col. of Engineering, U. of Arkansas in Fayetteville
M.S, Computer Science · (1997 - 2000)

Fulbright College of Arts and Sciences, University of Arkansas at
Fayetteville
PhD, Mathematics · (1995 - 2000)
